# EQUITONE [natura]

## Repräsentative Ästhetik

EQUITONE [natura] ist die durchgefärbte Faserzementtafel mit der charakteristischen Struktur des Faserzements für eine Architektur in natürlicher Materialität. Individuelle Projektfarben sind auf Anfrage möglich und bereits ab 200 Quadratmetern preisneutral.

## Einzigartige Haptik

Die steinerne und zugleich samtige Haptik lädt zur Berührung der Oberfläche ein.

## Dauerhafter Graffitienschutz

Durch den bereits werkseitig aufgetragenen permanenten Graffitienschutz ist die EQUITONE [natura] PRO besonders kratzfest, lösemittelresistent und lässt sich leicht mit Graffitientferner reinigen.
